

## WKLS Series Kelvin Test Lead Sets for use with Digital Low Resistance Ohmmeters

Digital Low Resistance Ohmmeters (DLROs) require test leads that allow connection at four points of the test subject to be able to make accurate low ( $m/\mu \Omega$ ) resistance measurements, (two to measure potential and two to measure current). Warwick Test Supplies has developed a series of hardwearing quality test leads with Kelvin Alligator Clips & C-Clamps in various lengths suitable for heavy duty use to make your DLRO measurement connections easier.

- Available in three styles of Kelvin Clip. Medium and Large Alligator Clip and a C-Clamp.
- 4mm Gold-plated Banana plugs as standard
- Test Current ratings 10 – 25 Amps
- Lead lengths available 3m to 25m.

Part No	Maximum Current	Length	Termination Style
WKLS10-3m	10A	3m (10ft)	Medium Alligator Clip Jaw size 41mm
WKLS10-5m	10A	5m (16ft)	
WKLS10-10m	10A	10m (33ft)	
WKLS25-3m	25A	3m (10ft)	Large Alligator Clips Jaw size 51mm
WKLS25-5m	25A	5m (16ft)	
WKLS25-10m	25A	10m (33ft)	
WKLS25-15m	25A	15m (50ft)	
WKLS25-20m	25A	25m (82ft)	
WKLS-C-3m	25A	3m (10ft)	50cm C-Clamp
WKLS-C-5m	25A	5m (16ft)	
WKLS-C-10m	25A	10m (33ft)	
WKLS-C-15m	25A	15m (50ft)	
WKLS-C-20m	25A	25m (82ft)	

Each Part No consists of 2 test leads that enable true 4 wire measurement.

Warwick Test Supplies specialises in providing innovative solutions to electronic testing problems. As well as providing bespoke/custom assemblies, we are a Franchised Distributor for the supply of a wide range of test accessories from the world's leading manufacturers.
